

TYPO3 Core - Bug #81502

TCA: Icons below select fields are always shown

2017-06-07 15:42 - Dirk Wenzel

Description

Expected Behaviour

I expect that no icon is shown below a select field of render type *selectSingle* **by default** or when the field is configured in TCA as follows

```
$GLOBALS['TCA'][$table name]['columns'][$field name]['config']['fieldWizard'] = [
    'selectIcons' => [
        'disabled' => true,
    ],
];
```

Observed Behaviour

For each entry in the select list an icon is shown. When no icons are configured for a single entry, the same default icon is repeated for every entry.

Reference

Current documentation states:

"Render thumbnails of icons below the select drop-down. Disabled by default."

see: <https://docs.typo3.org/typo3cms/TCAReference/8-dev/ColumnsConfig/Type/Select.html#selecticons>

History

#1 - 2017-06-07 16:01 - Dirk Wenzel

This error only occurs if the obsolete option *showIconTable* is set. This option is automatically migrated and a setting as described above is ignored.

#2 - 2017-11-11 17:10 - Mona Muzaffar

- Status changed from New to Closed

see comment above.

since this doesn't seem to be a bug I close this issue.
