

## Static Info Tables - Bug #82132

### Composer install fails with additional languages required at the same time

2017-08-18 15:18 - Simon Schaufelberger

<b>Status:</b>	Resolved	<b>Start date:</b>	2017-08-18

<b>Target version:</b>			
<b>Description</b>			
Installing TYPO3 fails when you require static_info_tables and another language like static_info_tables_de			
Problem:			
Database query failed!			
Query:			
<pre>INSERT INTO static_countries VALUES ('1', '0', '0', 'AD', 'AND', '20', '10', '39', 'Principat d\'A ndorra', 'Principality of Andorra', 'Andorra la Vella', 'ad', '49', 'EUR', '978', '376', '0', '1', '1', '0', 'Andorra', 'Andorra', '0')</pre>			
Error:			
Column count doesn't match value count at row 1			
The bug is that there are no columns given in the insert statement. As there are additional columns already for "de", the column count doesn't match.

[BUGFIX] Add column names when inserting static data

When the extension is used in a composer-based installation and another language is configured as well, just as e.g., static\_info\_tables\_de, additional columns are automatically created by TYPO3 for the translations and this prevents the static data from being populated. By explicitly giving the names of columns the extension will populate, the DBMS properly uses default values for undefined columns.

Resolves: #82132

#### History

##### #1 - 2017-10-05 12:10 - Hannes Bochmann

I would be glad to see a fix as I ran into the same problem.

##### #2 - 2017-10-17 00:22 - Stanislas Rolland

But the first line in ext\_tables\_static+adt.sql of static\_info\_tables is  
DROP TABLE IF EXISTS static\_countries;

Maybe related to [#80408](#)?

What gets installed and in what order?

Just got this issue. Attached patch fixes the issue.

In the mean time, here is how I fixed it for me in my global composer.json:

```
...
  "require": {
    ...
    "cweagans/composer-patches": "^1.6"
  },
  "extra": {
    "patches": {
      "sjbr/static-info-tables": {
        "Fix initialization of static territories": "patches/sjbr-static-info-tables-fix-static-data-typo3v9.p
atch"
      }
    }
  }
}
```

#### #5 - 2019-05-22 14:15 - Xavier Perseguers

Other tables are impacted as well. Finalizing an official patch.
