

## TYPO3.Fluid - Feature #8247

### add more uri options to form viewhelper

2010-06-15 14:01 - Susanne Moog

<b>Status:</b>	Resolved	<b>Start date:</b>	2010-06-15
<b>Priority:</b>	Should have	<b>Due date:</b>	
<b>Assignee:</b>	Bastian Waidelich	<b>% Done:</b>	100%
<b>Category:</b>	ViewHelpers	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Has patch:</b>			
<b>Description</b>			
The form view helper is missing an addQueryString param (like the link.action view helper) to easily keep the current query params when sending the form (for example you could have other extensions depending on certain params on your form page and would like to keep the current state when sending the form).			
Attached a small patch which enables this feature (though I don't know if it's the correct "fluid" way).			

#### Associated revisions

##### Revision 31cc22b8 - 2010-06-24 12:03 - Bastian Waidelich

[+FEATURE] Fluid (ViewHelpers): Added URI options format, additionalParams, absolute, addQueryString & argumentsToBeExcludedFromQueryString to FormViewHelper. Resolves #8247  
[+FEATURE] Fluid (ViewHelpers): GroupedForViewHelper can now group by object. Resolves #7389  
[+FEATURE] Fluid (ViewHelpers): Added DebugViewHelper. Resolves #8468

##### Revision 4620 - 2010-06-24 12:03 - Bastian Waidelich

[+FEATURE] Fluid (ViewHelpers): Added URI options format, additionalParams, absolute, addQueryString & argumentsToBeExcludedFromQueryString to FormViewHelper. Resolves #8247  
[+FEATURE] Fluid (ViewHelpers): GroupedForViewHelper can now group by object. Resolves #7389  
[+FEATURE] Fluid (ViewHelpers): Added DebugViewHelper. Resolves #8468

#### History

##### #1 - 2010-06-15 14:36 - Bastian Waidelich

- Subject changed from *addQueryString for form actions* to *add more uri options to form viewhelper*
- Status changed from *New* to *Accepted*
- Assignee set to *Bastian Waidelich*
- Branch set to *v4 + v5*

There is a work-around as you can overwrite the form action like

```
<f:form ... actionUri="{f:uri.action(action='foo', useCacheHash=false)}">..</form>
```

But we have had a similar discussion at <http://lists.typo3.org/pipermail/typo3-project-typo3v4mvc/2010-June/005049.html>

I'm taking care of adding some more uri parameters to the form vh

##### #2 - 2010-06-24 12:06 - Bastian Waidelich

- Status changed from *Accepted* to *Resolved*
- % Done changed from *0* to *100*

Applied in changeset r4620.
