Description			
It would be great to have a search/filter for the new content element wizard as in the install tool "all configuration".

[FEATURE] Add filter to "New content element" wizard

This patch introduces a filter in the "New Content Element" wizard which enables a backend user to search for their wanted content element respecting the CE name and description.

If a query leads to the situation that a tab has no results, that very tab becomes unavailable to the user. If the current active tab has no results, the next available tab is made active.

Resolves: #83128

Releases: master
