Description			
How to reproduce			
<ul style="list-style-type: none">• Have at least one language• Upload an image to the filelist• Edit the metadata• Translate the metadata• Make a content element "images" in default language• Make a reference to the image			
Result			
<ul style="list-style-type: none">• The reference is showing Set element specific value (Default: [THE TRANSLATED METADATA]) at the metadata overrides for the reference• Frontend is okay			
Note			
My default language is Dutch, the translation is English
