

TYPO3.Flow - Bug #8317

Parse Error in FLOW3 script with PHP < 5.3

2010-06-17 11:26 - Bastian Waidelich

Target version:	1.0 alpha 12	Complexity:	
PHP Version:			
Has patch:			

Description

When calling php Packages\Framework\FLOW3\Scripts\FLOW3.php with PHP 5.2.x I'm getting a parse error.

```
$className = '\F3\FLOW3\Core\Bootstrap';  
$className::defineConstants();
```

should have been the workaround to prevent the parser from dying with a parse error. But the second line throws

```
Parse error: parse error in Packages\Framework\FLOW3\Scripts\FLOW3.php on line 38
```

on my windows machine with PHP 5.2.10-dev

[+BUGFIX] FLOW3 (Core): Fix parse error on PHP < 5.3

Now anyone using PHP < 5.3 gets a proper error message again.

Fixes: #8317

History

#1 - 2010-09-10 18:19 - Karsten Dambekalns

- Project changed from 30 to TYPO3.Flow

- Category deleted (323)

#2 - 2010-09-26 22:25 - Karsten Dambekalns

- Category set to Core

- Status changed from New to Needs Feedback

- Assignee set to Karsten Dambekalns

- Start date changed from 2010-06-17 to 2010-09-26

- Estimated time set to 1.00 h

Without that line, does the version check work as intended?

#3 - 2010-10-07 18:12 - Christian Müller

Without

```
$className::defineConstants();
```

the version check works (just tested). Idea would be to move the version check to /Web/index.php. There it works (tested too).

#4 - 2010-10-07 20:59 - Karsten Dambekalns

- Status changed from Needs Feedback to Under Review

- Target version set to 1.0 alpha 12

#5 - 2010-10-08 10:15 - Karsten Dambekalns

- Status changed from *Under Review* to *Resolved*

- % Done changed from 0 to 100
