[TASK] Use BE Routing / PSR-7 instead of BackendUtility::getModuleUrl

The new PSR-7-based solution since TYPO3 v7 should be used everywhere instead of "BackendUtility::getModuleUrl()". This is possible because modules can be addressed via the "route" GET parameter instead of the "M" parameter since a few months.

The patch changes all occurrences within TYPO3 Core to use the new API.

Resolves: #83172

Releases: master
