TYPO3 Core - Bug #83457

TCA renderType selectCheckBox didn't check minitems

2018-01-03 14:46 - Tobias Klepp

Description

I configured my extension table with a mm relation fiedl and used the renderType selectCheckBox and a configuration for minitems = 1, but you can save the record in the backend without a warning. No error message / info is displayed.

My TCA configuration:

```
'config' => [
  'type' => 'select',
  'renderType' => 'selectCheckBox',
  'foreign_table' => 'tx_extkey_table',
  'foreign_table_where' =>
'AND tx_extkey_table.sys_language_uid IN (-1,0) ORDER BY tx_extkey_table.title',
  'minitems' => 1,
  'MM' => 'tx_extkey_table_mm',
],
```

any JS-errors?
If possible please provide a little demo extension

#3 - 2018-01-04 14:51 - Tobias Klepp

No. I get no JS error.

#4 - 2018-01-10 13:44 - Riccardo De Contardi

I copy my description from [#79525](#) ; that should be sufficient to reproduce it:

    1) Install styleguide extension
    2) create a new item Styleguide > Form engine - required
    3) Go to tab "Select"

    if you look at the section "select_4 selectCheckBox, minitems=1, maxitems=2":

    1) there is no error message or red outline
    2) if you compile all the fields except that one, you can save the item

#5 - 2018-01-24 20:24 - Susanne Moog

#6 - 2018-02-19 11:05 - Gernot Ploiner

I can confirm this. The same problem exists with maxitems in this case.

#7 - 2018-02-22 11:34 - Jan-Henrik Hempel

- Related to Bug #84012: Toggle all function at TCA control selectCheckBox ignores 'onChange' => 'reload' added

#8 - 2018-02-22 11:38 - Jan-Henrik Hempel

We can confirm this issue as well. We currently use TYPO3 8.7.9.

#9 - 2019-02-11 11:36 - Bernhard Berger

I just stumbled upon this issue in 8.7.24.. so still there unfortunately :/

#10 - 2019-04-17 23:41 - Benni Mack

- Target version changed from next-patchlevel to Candidate for patchlevel

#11 - 2019-06-25 16:43 - Florian Rival

- TYPO3 Version changed from 8 to 9

- PHP Version changed from 7.0 to 7.2

Same problem for me with Typo3 V9.
SelectBox is not mandatory and there's no exclamation mark nor message when nothing selected.

Sample TCA code :

```
'affiliate_office' => [
    'exclude' => false,
    'label' => 'Affilliate office',
    'config' => [
        'type' => 'select',
        'renderType' => 'selectCheckBox',
        'items' => [
            ['Office 1', 1],
            ['Office 2', 2],
            ['Office 3', 3],
            ['Office 4', 4],
        ],
        'size' => 4,
        'minitems' => 1,
        'maxitems' => 99,
        'eval' => 'required'
    ],
],
```
