Description

All page gathering and overlaying methods in sysex/frontend/Classes/Page/PageRepository.php do not care for I18n_cfg settings (Hide if no translation, Hide default translation).

Fix idea:

```
        foreach ($records as $index => $record) {
            if (GeneralUtility::hideIfDefaultLanguage($record['l18n_cfg']) && $this->sys_language_
uid === 0) {
                unset($records[$index]);
            }
            if (GeneralUtility::hideIfNotTranslated($record['l18n_cfg']) && $this->sys_language_ui
d !== 0 && !$record['_PAGES_OVERLAY']) {
                if ($record['uid'] == 2464) die(var_dump($record));
                unset($records[$index]);
            }
        }
    }
```
