

TYPO3 Core - Bug #84163

Epic # 90106 (Accepted): [Extbase] Priority Bugfixes

File operation permissions set as bitmask in BackendUserGroup model

2018-03-07 16:03 - Mathias Brodala

Status: Accepted	Start date: 2018-03-07
Priority: Should have	Due date:

Category: Extbase	Estimated time: 0.00 hour
Target version:	Complexity: medium
TYPO3 Version: 9	Is Regression: Yes
PHP Version:	Sprint Focus:
Tags:	
Description Since this change the DB field be_groups.file_permissions is a plain select field which leads to storing a CSV value like readFolder,writeFolder,... However, the Extbase domain model BackendUserGroup was not updated with this change and still stores permissions as bitmask. This needs to be updated to store permissions as CSV value instead.
