PHP Version:	7.2		
Description			
As an editor, I want to copy/move my content structure to another position so that its nested contents are copied/moved with it. As an editor, I want to change the content within the content structure via drag & drop. As an editor, I want to move the content within the content structure from one column/row/structure to any other.			

History

#1 - 2018-03-16 15:42 - Andreas Steiger

- Related to Epic #84101: The core must provide configurable structures for both pages and elements out of the box added

#2 - 2018-03-16 16:00 - Coders.Care Extension Team

- Description updated
