Description			
Hello Core-Team,			
I'm just writing following TypoScript:			
<pre>page.123 = TEXT page.123.value = 2547.1 page.123.numberFormat.decimals = 2 page.123.numberFormat.dec_point = , page.123.numberFormat.</pre>			
While typing the last dot, TYPO3 suggests me to insert the property thousand_sep, which is a not existing property. The correct name is thousands_sep.			
Stefan
