Description

When checking links in RTE fields like:
<a href="file://"....
the planer task and the module failes with message:
Folder ... does not exits. 1314516810

Reason:
- only the FileDoesNotExistException is catched

linkvalidator/Classes/Linktype/FileLinktype.php:

```
public function checkLink($url, $softRefEntry, $reference)
    {
        $resourceFactory = GeneralUtility::makeInstance(ResourceFactory::class);
        try {
            $file = $resourceFactory->retrieveFileOrFolderObject($url);
        } catch (FileDoesNotExistException $e) {
            return false;
        }
        return !$file->isMissing();
    }
```

Solution:
- additionally catch the FolderDoesNotExistException

```
public function checkLink($url, $softRefEntry, $reference)
    {
        $resourceFactory = GeneralUtility::makeInstance(ResourceFactory::class);
        try {
            $file = $resourceFactory->retrieveFileOrFolderObject($url);
        } catch (FileDoesNotExistException $e) {
            return false;
        } catch (FolderDoesNotExistException $e) {
            return false;
        }
        return !$file->isMissing();
    }
```

Hello,

thanks for your report.

Would you consider uploading your patch to Gerrit? Someone could do this for you, but I am thinking you might like the opportunity to contribute to TYPO3 yourself.

You can find a description of the TYPO3 contribution workflow here: https://docs.typo3.org/typo3cms/ContributionWorkflowGuide/

Hint: If you get stuck anywhere, ask on Slack in the #typo3-cms-coredev channel. You can register in the TYPO3 slack workspace here: https://forger.typo3.com/slack

Thank you in advance!
