Description			
Hi,			
it would be nice if I could use the preload (values: auto, none, preload) attribute on the <f:media Viewhelper within the additionalConfig attribute.			
It only would be necessary to pass it through. In TYPO3\CMS\Core\Resource\Rendering\VideoTagRenderer on Line 97, add preload in foreach:			
<pre>foreach (['class', 'dir', 'id', 'lang', 'style', 'title', 'accesskey', 'tabindex', 'onclick', 'controlsList', 'preload'] as \$key) { if (!empty(\$options[\$key])) { \$attributes[] = \$key . '=' . htmlspecialchars(\$options[\$key]) . ' '; } }</pre>			
Thanks, Michi

Okay, would be great if you could push a patch to our review system.

#4 - 2018-03-23 14:53 - Guido S.

Related v9 feature: <https://forge.typo3.org/issues/78264>

I think this would be only a patch for v8, if we force the patch from 78264 :-)

Because the patch 78264 will still take some time, I added the preload functionality individually. This as task and not as feature, due to the version setting of Benni.

Thanks to Michi for the code :-)
