Revision b4b7f61e - 2018-04-16 09:36 - Andreas Fernandez

[BUGFIX] Ensure that the „recover“ message is always in jQuery context

When a page is about to get recovered by the recycler, a checkbox is rendered into the modal text, which requires proper jQuery object.

However, if that checkbox is not required, a simple string is stored in the `$message` variable, breaking functionality as a jQuery object is expected. The message is now wrapped in a `<p>` tag to always have a jQuery object in place.

Resolves: #84701
Releases: master, 8.7
