

TYPO3 Core - Bug #86653

Preview of page, with "show", not working when starttime is set

2018-10-14 16:34 - Steffen Mächtel

Status:	Closed	Start date:	2018-10-14
Priority:	Must have	Due date:	
Assignee:		% Done:	100%
Category:	AdminPanel	Estimated time:	0.00 hour
Target version:		Complexity:	
TYPO3 Version:	9	Is Regression:	
PHP Version:	7.2	Sprint Focus:	On Location Sprint
Tags:			

Description

When using the "show" function in page tree, the preview on pages with starttime in future not works. The page content are not displayed and they are not in the page menu.

Typo3 Version: 9.5.0

To test this:

1. create a page and set starttime to a future date.
2. right click in page tree on this page and click on "show"

Expected result:

1. see the page content of this page
2. page should be visible in page menu (for example HMENU/TMENU)

What i can see:

the paramter added "?ADMCMD_simTime=" is not working anymore in the new admin panel

I have addes some screenshots from my test installation.

Revision a672d33a - 2020-01-16 11:35 - Susanne Moog

[BUGFIX] Reimplement previewing of date / usergroup restricted content

Preview functionality was only implemented in the Admin Panel. Previewing itself (as in being able to preview pages with access or user restrictions) should also work without having the admin panel installed and open.

The basic process is now like this:

- Backend generates preview URLs for pages with access restrictions
- starttime, endtime, fe groups
- > parameters ADMCMD_simUser and ADMCMD_simTime are appended to the FE URL
- Frontend PreviewSimulator Middleware uses these parameters to modify the current Context
- Adminpanel - if installed and open - takes given parameters as settings

for preview date/time/group - when user changes those, they are overwritten

Technical Changes:

- BackendUtility: Enable link generation for a specified context
- DateTimeAspect: Add new property to aspect to mirror SIM_ACCESS_TIME global
- PageRepository: Use new DateTimeAspect context property for enable fields
- AdminPanel: Set \$_GET params in settings if given, remove \$_GET vars if user saves admin panel settings (to allow user to change date/time in AdminPanel)

Resolves: #86653

Releases: master, 9.5

[BUGFIX] Make "showHiddenRecords" in adminpanel work again

The Backport of #86653 to 9.5 introduced a regression that made it impossible to preview hidden content via adminpanel in the frontend, when the option "Show hidden records" is used.

Releases: 9.5

Resolves: #91083

#1 - 2018-10-14 16:51 - Riccardo De Contardi

- Related to Bug #85726: Preview of page not working when publish date is set added

#2 - 2018-11-30 11:28 - Einar Gislason

- Priority changed from Should have to Must have

How on earth is this still an unresolved issue? This is an extremely important feature to have, without it it is practically impossible to work with date-restriction on pages. Please prioritise this.

Can confirm the issue is not resolved in 9.5 and 9.5.1. PS. Previewing pages with a future starttime is also broken in 7.6.23 :(

#3 - 2018-12-09 00:29 - Steffen Mächtel

- File `view_module_starttime_error_404.png` added

The same problem happens in the view module in typo3 backend. Having a page with starttime in future and go to "view" in typo3 backend. Error 404 appears.

I think its the same "mechanism" wich not works currently in the new admin panel.

#4 - 2019-01-11 19:18 - Jonas Esser

Same behavior in current master.

At the moment there are 2 issues.

1. The generated timestamp for the "ADMCMDD_simTime" is wrong but can be fixed with the following patch: <https://review.typo3.org/#/c/59066/>
2. The given "ADMCMDD_simTime" isn't used anymore. The new adminpanel uses GLOBALS[sim_access_time] to set the preview date.
