TYPO3 Core - Bug #86954

Categories are lost, when saving before category tree is loaded completely

2018-11-20 12:39 - Helmut Hummel

Status:	Closed		**Start date:**	2018-11-20

Description

To reproduce:

1. Have a category tree with a reasonable amount of categories (lets say 500 in 5 levels)
2. Edit a record with categories field
3. Select some categories and save
4. Save immediately again once the save button becomes available again

Expectation:

Categories are still selected

Actual result:

No categories are selected

[BUGFIX] Ensure correct initialization of selectTree value

This patch provides the current set database value in a hidden field as
early as the whole select tree JavaScript is provided. This prevents
data loss if the current record is saved before the select tree was loaded.

Resolves: #86954
Releases: master, 9.5, 8.7
