<b>Description</b>			
The RequireJsController uses the JsonResponse class in TYPO3v8 which was added with TYPO3v9 however.  This must be rewritten to not break the BE login.

[BUGFIX] Use Json-based response for RequireJsController

This is a regression due to a very unfortunate rebasing of a security backport which had the exact code as changed here in the original change which was tested.

The main reason is that JsonResponse is only available in v9 or later.

Resolves: #87519

Releases: 8.7
