[BUGFIX] Re-add highlighting of filter term in Svg Tree

This change re-adds the highlighting of filter results in the Svg Trees, which was present before in the Page Tree before it was built on SVG.

Due to the nature of SVG, it is rather complicated to color the actual background of the text than the text itself (using ``), but still, the highlighting is IMHO better than having no highlighting.

Resolves: #87743

Revision 0ec95a1d - 2021-04-23 14:30 - Benjamin Franzke

[BUGFIX] Fix PageTreeFilterCest

The SvgTree markup changed in #87743 causing acceptance test failures.
This wasn't discovered as gitlab-ci missed to vote negative.

The text node for the page "inline mngroup" now contains additional HTML when filtering for "Group".
This new markup rendered the previous xpath invalid:

```
inline mn<span class="node-highlight-text">group</span>
```

The xpath is now adapted to only filter for the text node.

History

#1 - 2020-05-05 21:18 - Josef Glatz

- Tracker changed from Feature to Bug
- Priority changed from Should have to Must have
- TYPO3 Version set to 10
- Is Regression set to Yes

Since this was available prior to v9 I've

- changed the tracker to Bug
- add flag Regressio
- and set specific TYPO3 version

At time of writing this comment, v9 and v10/master are affected

#2 - 2020-05-05 22:21 - Peter Kraume

I do a lot of editor trainings and editors coming from TYPO3 versions < 9 really miss the highlighting of the search phrase in the pagetree. Another thing that is missing since v9: it's not possible to unfold the child pages of a page which is shown in filter mode.

The unfold of child pages of a filtered page will be fixed with <https://review.typo3.org/c/Packages/TYPO3.CMS/+62086>

- Related to Bug #88259: Filtered pagetree should display child pages added

#5 - 2021-04-20 07:58 - Peter Kraume

I'd really love to see this missing feature fixed in v11 (or even better also v10).
