Description

The option is hardly used and can be solved via a custom hook as well.

[!!!][TASK] Remove TCA option setToDefaultOnCopy

This special setting resets a certain field to its default value when copying. This option was only there for resetting some sys_action values to default, which can easily be achieved by a hook if needed.

The option is removed to reduce the amount of checks and the amount of available options for edge-cases in TCA, as this option was not widely used - as identified by the Persistence Initiative.

Resolves: #87989

Releases: master
