Description

For mass editing, as described in the [Getting Started Tutorial: Mass Editing](#), you can select the icon "Edit all **shown** fields of the **listed** records".

I think it would be clearer to rename this to "Edit all **selected** fields ..." (because it only edits the fields that have been selected below).

And, in "multi-selection mode", it should say "of the **selected** records" (instead of "of the listed records").

- Status changed from New to Closed

I checked this with latest version of master and the text is now consistent with what is shown. Closing.
