[!!!][TASK] Remove database field "t3ver_id"

The database field "t3ver_id" which is managed by TYPO3 to store the number of the version for a specific version is not in use anymore, as this was related to the non-workspace managed versioning concept.

This linear versioning concept was removed, so the database field is not needed anymore.

It is recommended for all extensions with TYPO3 v10.0+ compat only to remove this field.

Resolves: #88143

Releases: master
