<b>Description</b>	
The edit pencil to edit the title in the page module is visible while the user has due language restrictions no access to edit this title.	
Steps to reproduce: <ul style="list-style-type: none"><li>- Make an editor restricted to only make changes for a certain language.</li><li>- In the page module, set the dropdown list to the default language (english in my case)</li><li>- The user still gets the pencil to edit, but this not aloud.</li></ul>	
See screenshot.

[BUGFIX] Respect language restrictions for direct page title editing

If the user has no access to edit the title of the page due to language restrictions, the pencil next to the title in the page module is no longer visible.

Resolves: #88337

Releases: master, 9.5

## Revision 096ee6cc - 2019-12-17 14:47 - Benni Mack

[BUGFIX] Re-introduce removed methods

Due to a backport from change <https://review.typo3.org/c/Packages/TYPO3.CMS/+62272> into 9.5, some "protected" methods (which had been marked as deprecated) were completely removed, resulting in broken functionality in TYPO3 Backend Page module since TYPO3 v9.5.12.

The change reintroduces the methods for TYPO3 v9.5.

The other issue could be resolved in [#87971](#). This issue is that the pencil is still visible due the user can't edit this. From UX point of view the user shouldn't see the pencil anymore, editing itself is already not possible due to [#87971](#).
