Description

I've noticed that the link wizard in TYPO3 v9 lists all content-elements of a page regardless of language, thus it's possible to link to a non-related content element, i.e. it's possible to select/link to a german content-element from an english record.

[BUGFIX] Respect sys_language_uid when fetching records for link browser

The link browser now respects the sys_language_uid of the active page record when selecting content elements to link to instead of showing all content elements on that pid.

Resolves: #88382

Releases: master, 9.5
