Description

Introduce a new panel in the info module of the admin panel which lists the configuration of each USER_INT present on the current page.

I made an extension for TYPO3 9.5 that does exactly that: [https://github.com/IndyIndyIndy/adminpanel_int](https://github.com/IndyIndyIndy/adminpanel_int)

I will provide a patch later which will add the feature to the master branch.

[FEATURE] Show configuration of USER_INT objects in adminpanel

Introduces a new panel in the info module of the admin panel which lists the basic configuration of each USER_INT present on the current page.

Resolves: #88441
