#### Description

Hi Karol and sorry for picking on you ;)

By coincidence I just found a left over var\_dump() call in F3\FLOW3\I18n\Cldr\Reader\DatesReader::formatDateTime().

Besides most of the method seem to have an invalid author annotation

```

Applied in changeset r4856.

##### #2 - 2010-07-13 20:56 - Karol Gusak

No problem Bastian! I'm very glad for any suggestions / notices. Nice catch! :-).

In regard to author annotation, do you mean the anti-mail-harvester spam-protection technology I use is invalid ;-)?

Hehe. No, apparently it is really effective, it even tricks humans ;)
