#### Description

Hi,

I'm currently working with DataProcessors, and I can see some incoherence (or maybe I'm missing something). For each DataProcessor except LanguageMenu and Menu, parameter 'as' is required. LanguageMenu and Menu DataProcessor provides \$menuDefaults, which provides default values for e.g. 'as' property, but for LanguageMenu, property \$menuDefaults is protected, and for Menu, property is set to public.

I think we should set LanguageMenu \$menuDefaults to public, and add property \$menuDefaults with default values for required field e.g. 'as' (and maybe other) for other DataProcessors.

In other DataProcessors, default value is hardcoded in parameter for stdWrapValue.

Let me know what do you think, and I will create patch if necessary.

#### History

##### #1 - 2019-10-22 14:35 - Jo Hasenau

- Status changed from New to Accepted
- Assignee set to Jo Hasenau
- Priority changed from -- undefined -- to Should have

##### #2 - 2019-10-22 14:35 - Jo Hasenau

- TYPO3 Version changed from 9 to 10

##### #3 - 2019-10-22 14:37 - Jo Hasenau

Since those changes might be breaking changes for former TYPO3 versions, we should not necessarily backport them to CMS 9 and 8. Still we should try to avoid breaking changes and if we managed to do so, we can still think about backporting them later on.
