Description

In the backend module "Indexing-> General statistics" in the list of most searched words, the search term is not displayed.

The screenshot shows the 'General statistics' module in the TYPO3 backend. It displays a 'List of most searched words' for all pages. The interface includes a navigation bar with a search function and a breadcrumb trail. Below the title, there is a note: 'Statistics for all pages. Select a page with indexed search form to see several statistics.' There are three tabs: 'All', 'Last 24 hours', and 'Last 30 days'. The 'All' tab is active, showing a table with two columns: 'Word' and 'Count'. The table contains 9 rows, each with a number in the 'Word' column (1-9) and an empty 'Count' column. The 'Last 24 hours' and 'Last 30 days' tabs also show similar tables with empty 'Word' columns.
