Description

If I create a multilingual page with a subpage and the subpage is not translated, I don't get the desired CUR in the translated page but CURIFSUB when I call it up.

Example:

Default

- Root
- Seite 1
- deutsch

English

- Root
- site 1
- deutsch (this page is not translated)

my config.yml:

```
rootPageId: 1
base: /
languages:
  - title: Deutsch
    enabled: true
    languageId: '0'
    base: /
    typo3Language: default
    locale: de_DE
    iso-639-1: de
    navigationTitle: Deutsch
    hreflang: de-DE
    direction: ''
    flag: de
  -
    title: English
    enabled: true
    languageId: 1
    base: /en/
    typo3Language: en
    locale: en_US.UTF-8
    iso-639-1: en
    navigationTitle: English
    hreflang: en-us
    direction: ltr
    flag: us
errorHandling: { }
routes: { }
```

my typoscript

```
lib.navigation.main = HMENU
lib.navigation.main {
  1 = TMENU
  1 {
    expAll = 1
    NO = 1
    NO {
      wrapItemAndSub = <li>|</li>
    }
  }
  ACT < .NO

  CUR < .NO
  CUR {
    linkWrap = 111|222
  }

  CURIFSUB < .NO
  CURIFSUB {
    linkWrap = 333|444
  }

  IFSUB < .NO

  ACTIFSUB < .IFSUB
  wrap = <ul>|</ul>
}

2 < .1
}
```

- Status changed from New to Needs Feedback

Hey Thomas,

I tried reproducing your issue with TYPO3 v11 and can't seem to reproduce this one, can you check with latest v10 / v11 again please?

Thank you!

#6 - 2022-01-13 06:18 - Thomas Scheibitz

- Assignee set to Benni Mack

- % Done changed from 0 to 100

Hey Benni,

this seems to be fixed in TYPO3 V11.

#7 - 2022-01-13 07:47 - Riccardo De Contardi

- Status changed from Needs Feedback to Closed

- Assignee deleted (Benni Mack)

@Thomas Scheibitz thank you for your reply;

I close this issue; if you think that this is the wrong decision or there is still work to be done here, please reopen it or ping me.

Thank you.
