##### Revision d93d742f - 2019-12-06 12:34 - Andreas Fernandez

[BUGFIX] Use RequestFactory for downloading mirrors and check response properly

The LanguagePacService now uses the RequestFactory to download the mirrors.xml.gz file, since it throws proper exceptions on failures.

In case of e.g. a timeout, the thrown exception is properly caught and the designed fallback kicks in.

Resolves: #89810  
Releases: master, 9.5
