Description	
After #89756 there are still some locations which directly use e.g. the TYPO3_copyright_year constant and should be migrated to the Typo3Copyright class.

[TASK] Move constant declaration to class constants

Using Class constants instead of constants that are defined during runtime has the following benefits:

- Naming can be made more consistent (and separated)
- Speeding up requests where the constants are not needed
- Benefit from Opcaching of class loading instead of dynamic runtime definition
- Testing framework has less "bootstrap" to do

This affects the following constants:

- TYPO3_copyright_year
- TYPO3_URL_GENERAL
- TYPO3_URL_LICENSE
- TYPO3_URL_EXCEPTION
- TYPO3_URL_DONATE
- TYPO3_URL_WIKI_OPCODECACHE

The constants are now deprecated.

In addition, the "Typo3Copyright" class is now called "TYPO3Information".

Resolves: #89866

Releases: master
