

TYPO3 Core - Bug #90437

Focus Area resize handles are not positioned correctly

2020-02-19 18:30 - Tobias Pinnekamp

Description

Checked in latest Firefox and Chrome!

As seen in attached screen "focus_area_wrong_position.png" all resize handles are positioned in the top left corner of the focus area.

Screen "focus_area_missing_absolute.png" shows that all Divs are missing "position: absolute".

Furthermore all side one dimensional handles are either missing a width or height as seen in "focus_area_missing_width_height.png".

I guess there is a lot of CSS missing because there are also no changing resize cursors defined.

I'm currently on TYPO3 v9.5.10.

[BUGFIX] Include jquery-ui-resizable css

The last time this css file was seen is in the old rtehtmlarea. Since it got replaced with the new ckeditor, the css was missing and the resize handles of the focusArea were lacking required styling.

Resolves: #90437

Releases: master, 9.5, 8.7
