

TYPO3 Core - Bug #90850

typolink generates links for non-reachable pages

2020-03-27 11:17 - Markus Klein

Description

Problem

typolink generates URLs to pages, which end up in a 404 error when using this link

Setup

FE|hidePagesIfNotTranslatedByDefault = true
fallbackType: fallback (in site config)

Reproduction

- Create pages "A" and "B".
- Add content (e.g. header CE) to both pages
- Create a link from page "A" to "B" in the content
- Translate page "A".
- View page "A" in FE in the translated language
- Click the link

Expected behaviour

If the link target cannot be reached by definition, the link **must not** be created at all.

Notes

If FE|hidePagesIfNotTranslatedByDefault = false then the created link is of course legitimate as the fallback content will be shown.

The same problem exists if fallbackType: strict (independent of FE|hidePagesIfNotTranslatedByDefault)
