Revision 67944aa4 - 2020-05-15 07:49 - Oliver Hader

[BUGFIX] Check for existence of `t3js-login-url` id in Login dialog

HTML element with identifier `t3js-login-url` is used to check whether referrer handling is activated and supported. In case the `Login.html` template has been overridden, mentioned element might not be given at all - which leads to a corresponding JavaScript error.

Resolves: #91385

Releases: master, 9.5

It works fine for me, though I had to remove the diff part for
typo3/sysex/Backend/Resources/Private/TypeScript/Login.ts
as this file does not exist on my installation.
Guess it only exists in a dev installation somehow? I'm curious...
