<b>Description</b>			
With <a href="https://review.typo3.org/c/Packages/TYPO3.CMS/+62086">https://review.typo3.org/c/Packages/TYPO3.CMS/+62086</a> the page tree filtering must be activated by hitting the "Enter" key, which is a step back in UX and may behave undefined on devices without a physical keyboard.			
We may utilize DebounceEvent in v10 to automatically filter the tree, for v9 we have to implement a debounce feature for the tree.
