Revision fb9a9ea8 - 2021-01-09 12:14 - Georg Ringer

[FEATURE] Add alt-text to login logo

The login logo for the default logo is set to "TYPO3 logo".
For custom logos an alt-attribute for the image tag can
be configured.

In v12 it will be required to configure the alt-text to
ensure accessibility.

Revision 60dab029 - 2021-01-12 15:35 - Benjamin Franzke

[BUGFIX] Fix TypeError when loginLogoAlt is unset

As of #92628, 'loginLogoAlt' is evaluated when a custom backend
loginLogo has been set, but it is not taken into account if has
not been set at all. Use null coalesce operator to avoid notices
and to avoid throwing TypeErrors because trim() cannot handle null
values.
