Description

After I updated to TYPO3 v.10.4.11, the image selection and image cropping is incorrect.

When I selected an image (maxitems=1) and remove it, I cannot select an image again. *Add file* buttons no longer appear.

In addition, the cropping ratio is no longer correct. The cropping area has changed and the image is rendered with a wrong proportion in the frontend.

I did not have the errors in version 10.4.10.

Maybe a sideeffect from <https://github.com/TYPO3/TYPO3.CMS/commit/d224f38a9d> ?
