Description

The cards header, mostly used in install tool, is missing some proper bottom padding. See some examples:

Enable and disable certain core features. Feature toggles in the core are used to globally use new features of TYPO3 that may be activated on new installations but upgrading installations can still use the old behaviour.

Available features:

Form: legacy upload mime types

If on, some mime types are predefined for the "FileUpload" and "ImageUpload" elements of the "form" extension which always allows file uploads of these types, no matter the specific form element definition.
Default setting: Enabled

Redirects: hit count

If on, and if extension "redirects" is loaded, each performed redirect is counted and last hit time is logged to the database.
Default setting: Disabled

Feature Toggles
Global Configuration

Enable and disable core features.

Revision b801c3bc - 2020-12-22 07:57 - Martin Kutschker

[BUGFIX] Remove extra card stylings introduced with Bootstrap 5

Remove background of card header and bottom/top border of
card header/footer so the style does not change from TYPO3 v10
to v11.

Also re-add checkbox-type-toggle absolute positioning of the
hidden checkbox in order to avoid upper spacing above checkbox
toggle elements (causes too much spacing in feature cards).

It is available at https://review.typo3.org/c/Packages/TYPO3.CMS/+/67231

#2 - 2020-12-21 20:59 - Martin Kutschker

While it's true that the bottom-padding "is missing" in v11, this only happens because the header has now a background and a border.
This change in CSS is what calls for the added padding.
The background causes some more broken layout, eg in the about module.

#3 - 2020-12-22 07:24 - Gerrit Code Review

Patch set 2 for branch **master** of project **Packages/TYPO3.CMS** has been pushed to the review server.
