Revision 6854af87 - 2021-01-08 19:55 - Oliver Bartsch

[TASK] Blind more configuration options per default

TYPO3 should blind sensitive configurations options, such as credentials or keys, by default, since the configuration module can usually be accessed by all admins.

Integrators always have the possibility to adjust these settings using the modifyBlindedConfigurationOptions hook.

Resolves: #93250

Releases: master, 10.4
