

TYPO3 Core - Bug #93470

XML export data does not include page translations.

Description			
Hello,			
I am here, as suggested, to report a bug:			
When a multilingual website is exported, page translations (and relations to them) are not included in the generated XML data. Translated content elements are included though as they should.

#2 - 2021-05-11 10:12 - Sven Burkert

- Tags changed from multilingual translation page to multilingual translation page xml t3d

I can confirm that, not only when exporting pages as XML, also when exporting them as T3D. I'm using newest TYPO3 version (10.4.16).

#3 - 2021-06-20 16:07 - Christian Toffolo

- Priority changed from Should have to Must have

- Target version set to Candidate for patchlevel

I can confirm this too. Import/Export is unusable on multi-language sites.
