Description

The spec allows these that are currently unsupported:

nonce
referrerpolicy
nomodule

For forward-compatibility I suggest an "additionalAttributes" property instead of 3 properties.

History

#1 - 2021-03-30 20:04 - Riccardo De Contardi

- Category set to Frontend

#2 - 2021-04-03 10:36 - Martin Kutschker

Two slips:

nomodule is already possible in v10 for includeJS.

nonce makes only sense for inline scripts which cannot be loaded (currently) with includeJS. For jsInline it only makes sense if the content is not concatenated and unchanged by TYPO3.

#3 - 2021-05-07 19:37 - Benni Mack

- Target version changed from 11.2 to 11.3

#4 - 2021-07-08 15:01 - Benni Mack

- Target version changed from 11.3 to 11.4

#5 - 2021-09-07 07:45 - Benni Mack

- Target version changed from 11.4 to 12 LTS
