#### Description

Having an editor (or admin) renaming files in the backend; it is possible to rename "01.jpg" to "a-wonderfull-summer"

#### Be aware of the missing file extesnion (.jpg)

The "01.jpg" file is now "a-wonderfull-summer" and if the file is referenced to any image TCA fields the GIFBUILDER throws an error on processing.....

I have attached a litte video for demonstration...

*NB: it is also possible to rename the file to "a-nice-movie.mp4" and make a reference to this 'movie' in various TCA fields only permitting .mp4*

#### Files

rename-file.mp4

7.69 MB
