[BUGFIX] Fix PageTreeFilterCest

The SvgTree markup changed in #87743 causing acceptance test failures. This wasn't discovered as gitlab-ci missed to vote negative.

The text node for the page "inline mngroup" now contains additional HTML when filtering for "Group". This new markup rendered the previous xpath invalid:

```
inline mn<span class="node-highlight-text">group</span>
```

The xpath is now adapted to only filter for the text node.
