Revision 1afed573 - 2021-05-19 14:20 - Christian Kuhn

[FEATURE] Add support of readOnly in t3editor

This allows to disable editing of text in FormEngine t3editor, while syntax highlighting is still applied.

ext:styleguide master brings the t3editor_2 field as example.

Revision e9c3c317 - 2021-05-20 10:13 - Oliver Bartsch

[BUGFIX] Allow copying content from readOnly t3editor field

With #94081, a new option was introduced to set a FormEngine t3editor field to "readOnly", as it was already possible for default text fields.

Using the option "nocursor" however also disabled copying of the content, which is not intended and also not in line with the behaviour of "readOnly" for normal text elements.

Therefore, when "readOnly" is set in TCA for renderType t3editor, the codeMirror related option is set to TRUE, which still renders the field as readOnly, but allows to copy its content again.

For further reference see:

https://codemirror.net/doc/manual.html#option_readOnly
