Description	
Acceptance test SettingsCest changes settings in the install tool. This causes other tests to fail due to display different labels and such. To avoid this SettingsCest has to revert the changes for each test and make sure settings are the same as before.

[BUGFIX] Extend settings ac tests to revert changes when done

Settings acceptance tests has been extended to revert all changes done to the installer when the test finished.

On top of that the tests now verify the changed setting by re-open the modal and compare the values.

Resolves: #94445

Releases: master
