Revision 59b62429 - 2021-08-12 10:43 - Alexander Nitsche

[TASK] Cleanup EXT:impexp

This patch serves as a basis for further improving the UX and new features for import / export.

- Better separation between controllers and worker services
- Refactor code & streamline wording
- More strict typing and some PHP 8 related fixes
- Streamline exception handling
- Support full import configuration in CLI command impexp:import
- Functional tests with increased coverage and less mocking
- A set of acceptance tests for the backend interface
- Minor bug fixes

Note: The output of the extension has not been changed in any way, e.g. the format of the export file remains the same. Only the internal processes have been optimized.

Resolves: #94772

Revision f15e4523 - 2021-08-13 11:57 - Christian Kuhn

[TASK] Disable a ext:impexp functional test with mssql

This one is disabled with sqlite already, mssql suffers from the same issue. Needs a dedicated fix somewhere in the tree classes, the issue is on our todo list with current ext:impexp works.

[BUGFIX] Stabilize ext:impexp acceptance tests

- Clickmenu needs to wait for full initialization before clicking on 'more'.
- Always wait for page elements when loading new page.

Revision 6eed2f6b - 2021-10-11 18:13 - Christian Kuhn

[BUGFIX] Avoid ReferenceIndex->enableRuntimeCache() in EXT:impexp

enableRuntimeCache() has been deprecated with #93038, with all calls being removed. #94772 re-introduced one case, probably during rebasing.
