<b>Description</b>			
When installing the TYPO3 distribution package EXT:introduction in a fresh TYPO3 master, the import of the page tree breaks at <a href="https://github.com/TYPO3/typo3/blob/master/typo3/sysext/impexp/Classes/Import.php#L868">https://github.com/TYPO3/typo3/blob/master/typo3/sysext/impexp/Classes/Import.php#L868</a> with this exception:			
<pre>OutOfRangeException No soft reference parser found for "rtehtmlarea_images". 1627899342 /var/www/html/public/typo3/sysext/core/Classes/DataHandling/SoftReference/SoftReferenceParserFactory.php 136</pre>			
The installation worked fine yesterday, so any recent patch in TYPO3 Core or EXT:introduction / EXT:bootstrap_package could have cause this side-effect.

## History

### #1 - 2021-08-14 14:03 - Alexander Nitsche

Investigations by Nikita have revealed that the EXT:bootstrap\_package configuration file [https://github.com/benjaminkott/bootstrap\\_package/blame/master/Configuration/TCA/Overrides/300\\_content\\_general\\_columns.php#L125](https://github.com/benjaminkott/bootstrap_package/blame/master/Configuration/TCA/Overrides/300_content_general_columns.php#L125) might be the problem as "rtehtmlarea\_images" is not supported anymore since some time by TYPO3 and probably is more strict about it now.

### #2 - 2021-08-14 14:20 - Oliver Hader

SoftReferenceParserFactory was introduced with <https://review.typo3.org/c/Packages/TYPO3.CMS/+70177>

### #4 - 2021-08-15 07:40 - Lina Wolf

after the images in the rtehtmlarea got removed I get the next error, this time for field "image"

```
Sat, 14 Aug 2021 16:45:04 +0000 [WARNING] request="54e2a4bf2609e" component="TYPO3.CMS.Impexp.Utility.ImportExportUtility": No soft reference parser found for "images".
```

### #5 - 2021-08-16 17:56 - Alexander Nitsche

No soft reference parser found for "images".

Has been solved in the EXT:bootstrap\_package patch [https://github.com/benjaminkott/bootstrap\\_package/pull/1046](https://github.com/benjaminkott/bootstrap_package/pull/1046).
