Description

What have I done

- edit or add a fluid_styled_content element
- press save button
- press view button
- a browser tab with a frontend view is shown to me
- select backend tab and edit content again
- press view button again

What I expected

- same frontend tab is loaded again
- I see my changes

What happend

- switch to the frontend tab
- nothing changed

technical remarks

- TYPO3 11.5.0-dev
- fluid_styled_content 11.5.0
- Frontend Tab contains the anchor link with tt_content element id (#c100)
- tried with CType "text" and CKEditor
- a hard reload of frontend tab shows the changes

History

#1 - 2021-09-22 18:57 - Annett Jähnichen

- Subject changed from view button in editing mode of a fluid_styled_content element did not show any changes to view button in editing mode of a fluid_styled_content element did not show new changes

- Category changed from Fluid Styled Content to FormEngine aka TCEforms

Ok, Jonas Eberle advice me to change the category to FormEngine.

Only in version 11.

Not reproducible in version 10.4.
