Revision 0c5f799e - 2021-12-09 13:49 - Alexander Schnitzler

[!!!][TASK] Do not register plugins/modules with vendor name

Calling \TYPO3\CMS\Extbase\Utility::configurePlugin(), \TYPO3\CMS\Extbase\Utility::registerPlugin() and \TYPO3\CMS\Extbase\Utility::registerModule() with first parameter \$extensionName containing a vendor prefix like 'Vendor.ExtensionName' is deprecated since version 10 and will now fail. Controller classes must be registered with their fully qualified name.

The vendor prefix must be omitted.

It's possible to simplify and streamline extbase bootstrap and request handling a bit more. This will continue with other patches.
