

TinyMCE RTE - Bug #9606

Problem with loading tinymce_rte in IRRE module

2010-09-06 13:29 - Guido S.

Status: Rejected	Start date: 2010-09-06
Priority: Should have	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	
Description	
If we activate RTE.default.useFEediting = 1 in TS, there is a javascript Error in Backend: "tinyMCE_GZ is not defined"	
- The problem exists also if we deactivate gzip - Problem exists only if the admin edit an IRRE module.	
TYPO3 4.4.2 tinymce_rte 0.6.1

- Status changed from New to Needs Feedback

Can you please test it with the current dev version on https://github.com/mschwemer/TYPO3-tinymce_rte. I tested it on a local installation with the extension t3blog and can not reproduce the error.

Can you confirm this?

Thx,
Marcus
